GOULD X-COUNTRY CLASS M CHAMPIONS

Captain Clayt Fossett's 1957 Cross Country team brought home the first cross country State Championship for Gould Academy. This feat was a fitting climax to an already fine season which saw the Huskies go thru 5 meets undefeated.

Captain Phil Korhonen came in first in every dual meeting during the season and was second at the State Contest in Orono. Another steady runner for Gould was Mel Jodrey who was usually right behind in second place. He finished fourth at the State meet. Other runners were Jerry Smith 14th, Guy Whittey, 16, and Dick Grover, 21st. Gould's chief competitor in the championship run was Piscataquis High of Guilford as they finished with a 58 score to the Bethel teams 55.

Season's record: Gould 15, Kennebec High, 50; Gould 16, Fryeburg Academy, 47; Gould 15, Portland, 47; Gould 16, Gorham, Maine, 49; Gould 15, Hebron Academy, 37, varsity; Gould 16, Hebron Academy 38, junior varsity.

BETHEL INN GOLF CADDIE TROPHIES NOW ON DISPLAY

The trophies for the Caddie's Tournament held at Bethel Oct. 12 are on display at Bosserman's Pharmacy.

Joe Balnis, golf pro at Bethel Inn, says that the caddies this past summer were a willing bunch and tried very hard to do a good job. Many good compliments were paid them by the guests using the golf course.

Our boys need help and it is urgent that every dad and mother who is interested attend. This meeting will decide whether the Cub Pack 165 of Bethel will continue or dissolve.

COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

It is gratifying indeed to have so many Bethel people show their interest in National Government as indicated by the recent vote.

It certainly shows that Bethel as well as the Nation is willing to consider the candidate rather than strict party lines. I feel that nearly 2500 people in town will now be willing to support Governor Muskie in Maine, and our great American President in the Nation, for good government.

May we at the local level also realize that it takes all people in our town doing our part to make it a better place in which to live. The few of us who are now entrusted with the business administration of Bethel realize it is our job to attempt at least to make every effort toward better government.

Thank you.

BARTLETT - SMITH

Miss Shirley Ann Smith, daughter of Mr. and Mrs. Vern Thompson, La Mesa, Calif., and Keith Bradley Bartlett of Bethel, son of Raymond M. Bartlett and Grace Nowlin Farnum, were married at 7 p. m., Sept. 23, at the Little Chapel of the Roses. The Rev. Dean Nauman officiated.

The bride was given in marriage by her father. She wore a gown of white lace over satin and a finger-ring set with coronet of rhinestones and pearls. Her bouquet was carnations and stephanotis centered with a white orchid.

Mrs. Morris Kludt was matron of honor and bridesmaids were the Misses Sheila Coleman, Alka Park, Vera Admire and Mary Ellen Thompson. They wore matching pastel gowns with floral headbands, and carried tinted carnations.

Mr. Kludt served as best man and ushers were Dewayne Dugen, James Stevens, Keith Kludt and Wesley Young, a former Gould Academy schoolmate of Mr. Bartlett.

After a reception in the Little Lodge the couple left for Warner Hot Springs. Upon their return they will reside at 5030 73rd Street, La Mesa, Calif.

Mr. Bartlett has always made his home with his grandparents, Mr. and Mrs. Guy Bartlett of Bethel. He enlisted in the Navy Sept. 13, 1954, and has been stationed for the past year at San Diego.

HONKALA LEAVES FOR DUTY IN ANTARCTICA

Rudolf Honkala of Salisbury, N. H., who is known by television sight and voice to people all over New England as "Whitey" Honkala, chief observer of the men who have given Mount Washington weather reports for the past year, has taken a still colder job.

On Nov. 5, Whitey will sail from Seattle, Wash., aboard a Coast Guard icebreaker to be second in command at the IGY Knox Coast Station at Antarctica. He will have charge of setting up and maintaining the meteorological program for the United States Weather Bureau at that station and will be gone approximately 15 months.

Mrs. Honkala, the former Hastings, and the four Honkala children, will stay in Bethel during his long absence, making their home with her mother, Mrs. Ruth Hastings.

This weather station, located on the Knox Coast of the Antarctic continent, about a third of the way around the continent from Little America, is one of the five research centers which will be set up by the American government for the International Geophysical Year 1957-58. This is a period during which a concentrated assault will be made by 22 different countries of the world on the scientific mysteries of the southern polar regions.

"Whitey" has had wide experience in cold weather meteorology. For the past year he has been in charge of the Mount Washington Observatory and had previously spent five winters on and off the "rock pile" as the mountain is known to its human habitues. Since television weather reports were originated there by WMTW-TV, he has appeared frequently, giving daily readings from atop the mountain. He and his wife also spent more than two years doing meteorological work in Alaska, at St. Lawrence Is., Annette Is., and at McGrath.

INMAN - MASON

The wedding of Miss Janet G. Mason, daughter of Mrs. Benet Mason of Greene, and Byron Harry Inman, son of Mr. and Mrs. Walter L. Inman of West Paris, was solemnized Saturday at an evening ceremony at the West Paris Universalist Church. Rev. Donald M. Hinckley, pastor of the Church, performed the double ring ceremony.

Mrs. Eleanor Flanders of Norway was the honor attendant for her sister, Vernon Inman, brother of the groom, attended as best man. The bride wore a beige suit with brown accessories with a corsage of red roses. Her attendant wore a gray suit with harmonizing accessories with a blue corsage.

Mrs. Inman is a graduate of Gould Academy and has been employed as dental assistant by Dr. John Trinward, Bethel.

Mr. Inman attended West Paris High School and served four years in the U. S. Navy in the British West Indies and Africa. He is employed by Benson's Oil and Coal Co., West Paris.

After an undisclosed wedding trip the couple will reside at High Street, West Paris.

SUNSET REBEKAH LODGE HOLDS VISITATION NIGHT

Sunset Rebekah Lodge met Monday night with a good attendance. This was visitation night by the District Deputy President Dorothy Tucker and Marshal Ida Chapman of Mount Pleasant Lodge, South Paris. They were accompanied by several members of their lodge. Invitations were read to the reception of the President, Edna F. Hagar and Marshal, Gertrude Kirsch, of the Rebekah Assembly at the Woodford Congregational Church Parish House, Portland, Saturday, Nov. 17.

The Noble Grand appointed Hilda Denahue, Ruth Brown and Norma Jodrey on her auditing committee for the year. Past District Deputy President Annie Cotton installed Fern Jordan as Color Bearer and Dora Ford as Warden. Mrs. Trinward was appointed for a short program for next meeting and each member was asked to bring a small gift for it.

The District Deputy President gave very pleasing remarks, including the motto of the President for the year, the watchword and plans for the lodge. The Noble Grand spoke of volunteers for carrying people to clinics, also for baby sit-ting.

The MGC will hold their meeting and a 50 cent luck supper at the hall Monday evening, Nov. 12. Officers will be elected.

DR. BOYNTON GOING TO VIETNAM AS REGIONAL PUBLIC HEALTH DIRECTOR

Dr. Willard H. Boynton of Bethel has accepted a position for two years with the International Cooperation Administration. He will go to Saigon, Vietnam, as Regional Public Health Director. The ICA sends medical doctors with Public Health degrees to work with the Vietnamese government in advising and improving health facilities, especially in villages. Because of his experience in general medicine, Dr. Boynton will probably be an advisor or in the Medical Department.

Since 1944 Dr. Boynton has carried on an active general practice of medicine in Bethel. He is now in Washington, D. C., where he is taking an orientation course to prepare him for his new work.

Mrs. Boynton and their five children, David, 14; Susan, 12; Willard, 9; Douglas, 8; and Sally, 5, will join him there soon and will fly to Saigon where they will make their home for the next two years.

SERVICE STATIONS TO POST GASOLINE TAX REMINDERS

Gasoline pumps throughout Maine will get a new look next week as service station operators affix permanent signs calling attention to the 10 cent tax paid on each gallon.

The tax signs are being posted because the pumps automatically compute the tax and gasoline price as a lump cost, concealing how much of the motorist's gasoline dollar actually goes into taxes, according to Charles S. Austin of Portland, chairman of the Maine Petroleum Industries Committee. "Citizens recognize the benefits the State derives from gasoline tax receipts in the way of better roads. At the same time, we feel the Maine motorist is entitled to know that taxes add 45 per cent to the cost of his gasoline," Austin stated.

He said the committee hopes to have the dual signs affixed to every gasoline pump in the state.

Mrs. C. F. Saunders, Past President of the State Fair Chiefs Association of Maine, attended the mid-year meeting and luncheon held at Norway Tuesday.

William Chapman and daughter Betty spent the week end in Presque Isle where they attended the annual meeting of the Short-horn Breeders Association. Betty was presented with an overnight case from the Association in recognition of the service she has done in advertising the breed in the state.

ACROSS the DESK

ideas from other editors

From the Newark Courier-Gazette, Newark, N. J.: No one likes to think of atomic attacks on America by a ruthless enemy, about cities blasted into roaring infernos, or about millions of evacuated people streaming into the rural countryside.

Because it isn't the kind of thing we like to think about, many of us refuse to think about it. "It isn't possible." Or, if it is possible, "We can't hope to survive." This is the kind of reasoning that spells defeat, even before attack.

You wouldn't stand by while your barn was burning. If you could save even half of it, you'd work to save half. We can't stand by in our community today, because the threat of enemy attack is real and there is something we can do about it.

We can plan, prepare now to work together for our common survival. The organization for that planning is civil defense.

The enemy has nuclear weapons and the means to throw them against America. When he is ready to attack, he won't wait. Why should we? Let's get ready.

Our first job is to learn to take care of ourselves and our families in any emergency. Civil defense can help us with that.

Our second job is to be ready to

meet the real threat of radioactive fallout, either by taking shelter or evacuating. Again civil defense can show us how to prepare.

Another task is to prepare to care for the people evacuated from target cities. They will help to care for themselves too. And together, we can work to put America quickly back on its feet, to fight back and win. By helping ourselves, we'll be helping ourselves. Survival depends on this complete cooperation.

We'll also have to be ready to help in the attacked cities—to save lives and salvage as much of America's resources as possible. Our help will be vitally necessary to the nation's survival.

Some of us should be trained as rescue crews, some as fire fighters, others as first aid teams, other as auxiliary policemen, emergency vehicle crews. Civil defense is ready to help us get this training now. It's double-barreled training, too. It can be mighty important to taking care of our families and our property.

These facts cannot be denied: We're on the potential battle line, right along with the big cities. The enemy can attack our nation, hard and horribly. We can survive, recover, fight back to win—if we are prepared. Civil defense is that preparation.

THE AMERICAN WAY

THE FOREIGN-AID ROAD TO BANRUPTCY

by John T. Flynn

COMMENTARY NOTE: John T. Flynn is a noted author, lecturer and radio commentator.

Once upon a time our old Uncle Sam collected a couple of billion dollars from us in taxes every year and spent it to provide his citizens with certain services which he was authorized to perform under the Constitution. Since during our various wars, our thirty of Uncle Sam managed to stay close to paying his bills every year. It was not very difficult to do. The federal government was set up to defend us against foreign enemies and to perform a very few number of services as clearly defined by the Constitution.

But then Uncle Sam began putting his hands to our pockets to take from us in taxes and borrowing fantastic sums to spend all over the world. How fantastic his operation has become can be seen from the following:

From the beginning of our government in 1789 up to 1919—a period of 130 years—the total cost of the federal government was \$1 billion dollars. This included the cost of all our wars up to that time: the War of 1812, Civil War, Spanish-American War and World War I. But in the single year 1944 our government spent the same sum—\$1 billion dollars!

This republic was set up to defend the people of the United States. But our government has been pouring out billions to our so-called "friends" all over the globe. What do these countries do with our billions? We gave a cool billion to Brazil in return for which he recently made his peace with the Germans. We gave some 400 million to Tito and over 200 million to Stalin, the overlord of folks who devour us.

There was the Marshall Plan to aid the war-torn countries in Europe. The War ended 11 years ago. But the Marshall Plan, under many different names, goes on today. As a result, we are tied to the EEC and have a national debt besides of over \$25 billion dollars. And we are little better off.

What is the result? We are

France—where the largest single party in the French Assembly is the Communist Party—has gotten over six billion.

We gave money to Portugal to build a railroad highway to connect its capital with a famous gambling resort. We've provided dress suits for Greek undertakers, and public baths for Egyptian camel drivers. We've bought iceboxes—believe it or not—for the Eskimos. We gave a billion dollars to a government in Indo-China. And what happened? It threw itself into the hands of the Reds. We built a college in Ethiopia, and paid for airplane rides for Arabs to visit their religious shrine at Mecca.

How long is this to continue? Our generous handout chiefs in Washington assure us we must keep this up for at least another ten years. The immensity of these transactions is such that it is difficult to grasp them. Here is a figure which may help. Since the end of World War II we have given away in foreign handouts \$4 billion dollars. That is only eight billion dollars less than it cost to run the entire United States government for 130 years from 1789 to 1919, including four major wars. And a dispatch from Washington as I write informs us that the delivery of good and money to our "friends" abroad has increased for the first time since the Korean War. Our government made loans and gifts to various countries last year of \$6,100,000,000. This is almost as much as the total cost of government was before we set out to save the "free world" including Russia.

Perhaps one of the strangest facts in this whole wild spending spree is this. When World War II ended our federal spending dropped from \$4 billion to \$1 billion. Of course when we got into the Korean War the costs went up again. But that was ended three years ago. Yet here we are in 1954, 1955 and 1956 spending twice as much as we did in 1944.

Of course, all this squandering of our substance all over the world has provided a paradise for what ever bunch of politicians happen to have their hands in the treasury. But for the rest of us, a continuance of this policy means national bankruptcy.

Mr. Grove, Calif. Citizen: "In many times and times, men have fought and have died for the sake of self-government—the right to vote. Especially Americans."

...NOW THAT IT'S OVER, AND WE HAVE A FINE MAN AS PRESIDENT, LET'S QUIT SQUABBLIN' AND SQUABBLIN' AND HELP HIM TO CONTINUE MAKING OUR DEMOCRACY STRONG IN THE WORLD AND SAFE AT HOME. ...!!"

Q—Can you give me some figures on rate of profits for small business as compared to big business?

A—The rate of profit for small business (assets under \$1 million) has always been lower than that of big business (assets over \$1 million). In 1948 the first full year after war-time controls were lifted rate of profit before taxes on stockholders equity for small manufacturing corporations was 17.5% lower than the rate of larger corporations. In 1952 the rate was 23.4% lower and in 1955 the rate of small business profits was 45.1% lower. Figures were taken from the Federal Trade Commission.

Q—Can you give me the theory behind this so-called "hard-money" policy?

A—In theory the hard money policy is intended (1) to keep a balanced dollar; (2) that to keep supplies of goods in balance with purchasing power it will curb production and lessen purchasing power; (3) that higher interest charges will operate to keep prices down.

Q—Can you tell me how the Panama Canal operates?

A—The Panama Canal and the Canal Zone are both operated by the Panama Canal Company created under Public Law 841 July 1, 1915. The Canal Zone is in effect a government reservation, administered by the Canal Zone Government. The law incorporated the operation of the canal and related commercial enterprises, into a single, business-type financial and administrative structure, the Panama Canal Co., and to constitute those units of the Canal concerned solely with governmental functions, including sanitation and health, as the Canal Zone Government. The law provides that the Company be self-sustaining and regulate operations with provision for toll rates. But both the Company and the Government are headed by the same man, with the rank of President of the Company and Governor of the Canal Zone Government. He is J. S. Baybold. The Canal zone is a strip extending across the Isthmus five miles on either side of the canal, containing 615 sq. MI. It was ceded to the United States by Panama by treaty in 1904, the compensation being \$10 million, plus annual payments to Panama of \$100,000. The cities of Panama and Colon remain in Panamanian hands, except the USA has jurisdiction over sanitation and quarantine.

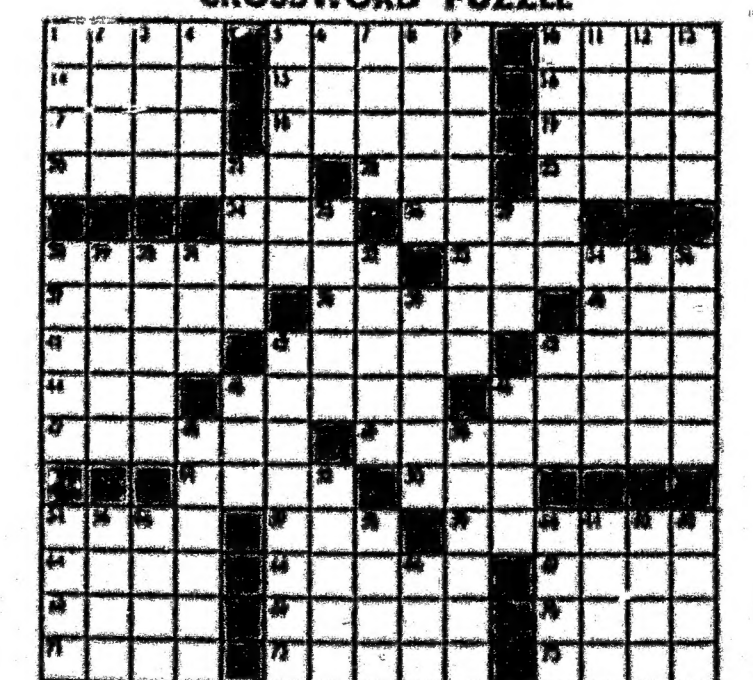

Famous last words: "I forgot to register." You can't vote in the November 6 election unless you are registered.

Brazil's Senate building in Rio de Janeiro once was one of the show places of St. Louis, Mo. Ornatu Monroe Palace, named for the fifth President of the United States, housed Brazil's exhibits at the St. Louis Exposition in 1904. It was disassembled, moved to Rio, and reconstructed there.

GREENWOOD CITY SCHOOL

For Halloween night we made a

Halloween tree and set it out front

decorated with jacks, cats, moons,

and ghosts. We gave a program to

a large audience. The first thing

on it was a march by the school in

costume. Then we sang a Hallow-

een song, A Witch's Secret, by Carl

and Colista Curtis, The Three Old

Women, by Carlene Walsanen, Lucy

Curtis, and Terry Poland. Two

Jacks, by Kenneth and Albert Cur-

tis. A Million Black Cats, by Rob-

ert Holt. II for Help, by Carlene

Walsanen. Jacks on a Fence, by

Terry Poland, Lucy Curtis, and

Carlene Walsanen. Who's Scared,

by Lucy Curtis, Terry Poland, and

Albert Curtis. They were in the

Sounds of Halloween too. A Word

to a Little Ghost, by Terry Poland

and Lucy Curtis. Who's Afraid of

Ghosts, a play by the upper grades. Last on our program was a Drill. We sold popcorn, fudge, punch, fortunes, and numbers for a cake at the party.

Two have been absent this week, Ann and Robert Holt.

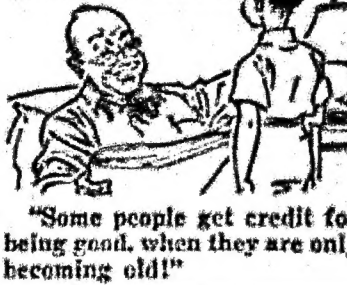

Ann Holt returned from the hospital Friday but is unable to come back to school yet.

We used the candles we made in our Jack o' Lanterns.

Our soap isn't completed yet. We hope to do more work on it this week. Reporter, Colista Curtis.

LET'S FACE IT!

THERE WERE 155,000 FOREST FIRES in the U. S. last year. An average of more than 400 a day!

And the most tragic part of this shameful waste is that 9 out of 10 were caused by everyday, well-meaning people who were careless for just one moment with cigarettes, fires, matches, burning brush, etc.

People like you caused this terrible destruction which blackened and ruined 10 million acres of America's

wooded lands and recreational areas. Valuable watersheds were damaged. Animals and birds died by the thousands. Yes, and humans lost their lives too.

This disgraceful record can be stopped. Forest fire prevention rests in your hands. Pledge yourself to be careful, exceedingly careful with matches, smokes and campfires. Make sure that every spark is out—dead out! Help stop this frightful waste and keep America green.

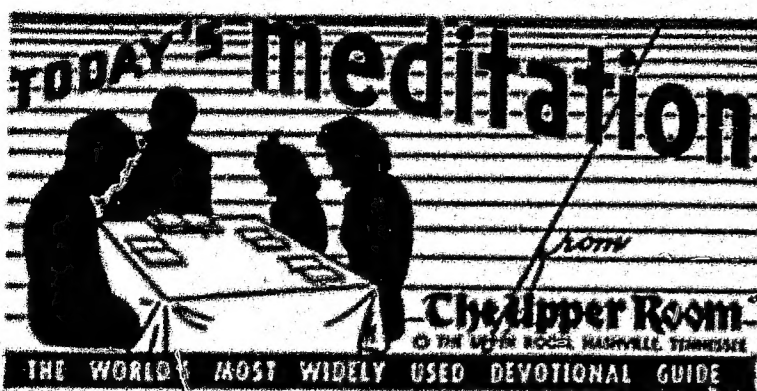

Remember—Only you can
PREVENT FOREST FIRES!

Today's Meditation
Read I Kings 17:1-6.
 The ravens brought him (Elijah) bread and flesh in the morning, and bread and flesh in the evening; and he drank of the brook (I Kings 17:6).

MANY years ago a small Kansas settlement was all but wiped out by grasshoppers and drought. Lack of food created a serious situation. Hunger threatened the very existence of the settlement. Many were ill. This happened at a time when buffalo no longer roamed the prairie. One day, however, a boy ran down the street shouting, "A buffalo! A buffalo!" No one believed him. But the next day, having nothing better to do, followed him. They found he was telling the truth. A lone buffalo was standing on the prairie before

their very eyes. Soon the animal was killed, skinned, cut up, and cooked.

As it is written that the ravens brought bread and flesh to Elijah, could it not also be said that a buffalo brought flesh to a hungry settlement?

Prayer
 Our Father, help us to have faith even in seemingly overwhelming circumstances. Help us to remember that what we call miracles are Thy laws operating in a way we do not understand. May we never doubt Thy ability and willingness to supply all our needs. For the Saviour's sake. Amen.

Thought for the Day
 God supplies our needs, but we must do our part.
 Pearl Nielsen (Nebraska)

REV. ROBERT M. HARTER
Love and Sacrifice
 In our book there is a great love story with water running branches that shade half the place. The place is usually alive and vocal with blue jays and other birds. Two gray squirrels live somewhere in the trees and appear at intervals. One morning last August there was a raucous cry of joy birds that sounded something like this, this, this!

The appearance of a squirrel had upset the jays and caused their loud chorus. And what I decided it must have been due to the direction of the squirrel's movement toward some food that had been placed under the tree. I have never known of a blue jay and a squirrel having a fight, but I can easily see the redoubt of a squirrel upon the squirrel's foe.

How human beings ought to be when and under what blue blue blue and white. They ought not to fight, but to live with each other and between them other people who they created for themselves. Jesus indeed is the only one that could give a peace of mind and love him the way of his own selfish thoughts. Let us be content with what we have.

Eisenhower for President
 He is a wonderful man.
 What others can't do, Eisenhower can.

He's for the old; he's for the new.
 But most of all, he's all for you.
 So when it comes election day,
 Go on, get up, get on your way.
 Go to the polls, it's what you like.
 Don't be a fool, vote for Ike.

GOULD ACADEMY

GOULD TAKES FRYEBURG

Gould Academy struck early last Saturday, ran up 10 points in the first half and coasted to a 10-0 victory. Early in the first period Jim Hill went off his own right end for a 44 yard T.D. run. Stevens kicked the point after. A half goal line stand by the Huskies with the visitors on the 1 foot line ended with the ball on the five yard line.

In the second quarter Fryeburg failed to gain and Gould took over on their own 25 yard line. With Hill, Murphy and Smith going for steady gains the winners marched 23 yards with Hill again scoring. This time for five yards out. The place kick failed.

The final Husky score was a sensational one. A pass, Anderson to Murphy, for 30 yards put the ball on the 18. On the next play on a delayed pass Sumner passed to John Glodding, who leaped high in the air to one hand it as he fell into the end zone. It was a beautiful catch.

The teams battled near midfield most of the last half but with minutes to go Fryeburg's Kiessman dropped back to kick, juggled the ball and then went off his left side for 26 yards to the 10 yard line. Two plays later Fryeburg's workhorse, Ann Pike, scored from nine yards out. The place kick was blocked.

Jim Hill was the outstanding ball carrier as he romped for two T.D.'s and ripped off many long gains. The Gould line from tackle to tackle played well defensively while the first team was in there. Coach Scott threw 34 men into the game.

The first downs were 10 for the winners to nine for the visitors. In passing Gould tried seven, completed two for 44 yards and one T.D. but had three intercepted. Fryeburg went to the air nine times and completed three for 43 yards.

The Fryeburg victory was the fifth in six games this season, which can be put down in the books as a most successful one. No such record was expected when the squad reported for the first practice sessions in September. It has been the result of consistent hard work, faithful practice, and teamwork between squad members and their coaches.

The 10 Commandments of Safety

1. Treat every gun with the respect due a loaded gun. This is the first rule of gun safety.
2. Guns carried into camp or home, or when otherwise not in use, must always be unloaded, and taken down or have actions open; guns always should be carried in cases to the shooting area.
3. Always be sure barrel and action are clear of obstructions, and that you have only ammunition of the proper size for the gun you are carrying. Remove oil and grease from chamber before firing.
4. Always carry your gun so that you can control the direction of the muzzle, even if you stumble; keep the safety on until you are ready to shoot.
5. Be sure of your target before you pull the trigger; know the identifying features of the game you intend to hunt.
6. Never point a gun at anything you do not want to shoot; avoid all horseplay while handling a gun.
7. Unattended guns should be unloaded; guns and ammunition should be stored separately beyond reach of children and careless adults.
8. Never climb a tree or fence or jump a ditch with a loaded gun; never pull a gun toward you by the muzzle.
9. Never shoot a bullet at a flat, hard surface or the surface of water; when at target practice, be sure your back stop is adequate.
10. Avoid alcoholic drinks before or during shooting.

If Fire Strikes Your Home...
GET OUT of the house the minute you discover your first fire. ALWAYS be ready to use different escape routes from any room in your house! TEST doors before opening. If doors are hot, block them with furniture or wet mattresses to keep out smoke and heat. Get out another way! NEVER jump from upper-story windows except as a last resort! Wait for firemen. HOLD your breath if you have to make a dash through smoke and flames! REMEMBER, the air is usually better near the floor in a smoke-filled room! CALL the fire department at once! They know how to fight fire. Don't waste your time or your life trying to fight a fire unless it's so small you're sure you can control it with the right extinguisher. DON'T ever go back to a burning building for any reason! Smoke and fire gases from even the smallest fire can be deadly. GET medical treatment at once if you're burned or exposed to fire and smoke! Scorching or suffocating or smoke inhalation can have fatal results.
